

DETROIT MODULAR LOUNGE

Technically complex and elegantly stylish, the Detroit is an architectural piece that's up to date, above the standard and beyond the everyday. While the lines evoke the Loft this settee has an elegant handwriting all its own. The arms are refined, the back filed in, the seat cushioning wraps around and, when necessary, rises up. With solid beech, adaptable MDF and robust steel construction the design is sleek yet strong. Change the combination of fabric and leg colour, and it will fit into any interior environment with succinct, enduring solidity. For 'floating above' European sophistication and at-home functionality the Detroit rises to the occasion. Available with a brushed silver or matte black metal legs.
